

Subject Index for Volume 3

- Alzheimer's disease, 102, 267
Aneurysm, 216
 mycotic, 222
Anticoagulation, 57
Antiphospholipid syndrome, 121
Aphasia, 150
 subcortical, 150
Aspirin, 115, 181
 versus ticlopidine, 49, 168
Asymptomatic carotid stenosis, 244
Ataxic hemiparesis, 164
Atherosclerosis, 202
Atrial fibrillation, 181
- Barthel index, 123
Basilar occlusion, 9
Big-endothelin, 256
Bilateral vertebral occlusion, 9
Book reviews, 75, 208, 276
Brain infarction, 145
- Cardioembolism, 57
Cardiovascular diseases, 106
Carotid artery
 dissection, 15
 distribution, 49
 endarterectomy, 244
 occlusion, 61, 202
 stenosis, 164
Cerebral blood flow, 81
Cerebral embolism, 15, 222
Cerebral glucose metabolism, 81
Cerebral infarction, 106, 202
 predictors of, 23
Cerebral ischemia, 23, 123, 240
Cerebral perfusion, 90
Cerebral revascularization, 77
Cerebrovascular accident, 209
Cerebrovascular disease, 106, 112, 181
Cognitive performance, in patients with ischemic vascular dementia, 90
Computed tomography, 65, 123, 157, 231, 240, 267
 for diagnosis, 267
 single-photon emission, 150
Control of risk factors, 90
- Decision analysis, and carotid endarterectomy, 244
Delay time
 between emergency room arrival and stroke consultation, 177
 between ischemic stroke and hospital arrival, 228
Depression, in stroke survivors, 193
- Diabetes, synergism between hypertension and, 189
Diaschisis, 150
Dipyridamole, 115
- Earlobe creases, and ischemic stroke incidence, 106
Eclampsia, hypodense ischemic lesions and, 240
Elderly couples, coping strategies of, 209
Emboli, 15
Embolism, 181
 cerebral, 222
Emergency room, delay between arrival in and stroke consultation, 177
Erythrocyte aggregation, 102
- Fibromuscular dysplasia, 15
Functional profile of patient progress, 29
Functional skills, following stroke, 209
- Headache, 216
Hemiplegia, 261
Hemorheology, 102
Hospitalization, for first stroke, 3
Hyperperfusion, 123
Hypertension, 90, 189
 systemic arterial, 157
Hypodense lesion(s), 157, 240
- Infarcts
 brain, 145
 cerebral, 106, 202
 cortical, 231
 lacunar, 157, 164, 231
 peri-, 123
 small deep, 189
 thalamic, 81
Intracerebral hemorrhage, 65, 222
 influence of site on outcome, 65
 prognosis of, 65
Intracranial stenosis, 15
Ischemic stroke
 big-endothelin in, 256
 and earlobe creases, 106
 and hospital arrival, 177
Ischemic vascular dementia, 90, 267
- Lacunar infarcts, 157, 164, 231
 racial difference in, 157
Leuko-araiosis, 267

SUBJECT INDEX FOR VOLUME 3

- Magnetic resonance imaging, 123
Meta-analysis, 115
- Neuropsychology, 81
Neurosurgery, 177
Nosocomial stroke, 112
Nursing home, 3
- Occlusion
 basilar, 9
 bilateral vertebral, 9
 carotid artery, 61, 202
Omental transposition, 77
Outpatient approach to rehabilitation, 29
- Peri-infarct, 123
Place of stroke occurrence, 3
Platelet
 antiaggregants, 115
 function, 145
Polio-araiosis, 267
Positron emission tomography, 81, 123
- Racial differences for lacunar infarcts, 157
Radioimmunoassay, 256
Range of motion, in patients with shoulder pain, 261
Recanalization, 9
Risk factors, 106
- Shoulder pain, 261
Silent lacunes, 157
Sleep apnea, 145
Sneddon's syndrome, 121
Stroke, 15, 23, 57, 145, 150, 193, 202, 244
 age and, 181
 consultation, 177
 coping after, 209
 education, 228
 emergency evaluation and treatment, 132-144
 first six hours, 137-144
 incidence, 3
 ischemic, 106, 228, 256
 life satisfaction after, 209
 localization, 231
 nosocomial, 112
 outcome, 3, 90
 place of occurrence, 3
 prevention, 115, 168
 progressing, 61
 registry, 65, 177
 rehabilitation, 29
 risk, 106
 shoulder pain and, 261
 survival, 3
 symptoms, 228
Subarachnoid hemorrhage, 216, 222
- Target-organ damage, 157
Thalamic infarcts, 81
Thromboxane, 132, 145
Ticlopidine Aspirin Stroke Study, 49, 168
Transcranial Doppler, 9, 15
Transesophageal echocardiography, 57
Transient ischemic attack, 23, 49, 157, 244
Treatment delays, 177, 228
- Ultrasound, 15
- Vascular dementia, 102
Vasospasm, 240
Vertebrobasilar disease, 9
Vertebrobasilar distribution, 49
- Whitney Observational Depression Index, 193
