Neuroscience Opportunity

Saint Thomas Health Services, a member of the Daughters of Charity National Health System, has a full-time opportunity for a Stroke Program Coordinator in our growing Neurosciences Program

Responsibilities will include assessing patient condition; planning and implementing interventions; and evaluating patient responses under the direction of and in collaboration with the Stroke Program Medical Director. The qualified candidate will act as a role model, consultant, and educator utilizing research and standards as a guide.

Masters degree (preferably in Nursing), three years experience in an appropriate healthcare setting, and current Tennessee RN licensure required. Certification by the American Association of Neuroscience Nursing or comparable appro-

priate board preferred. Candidate must be able to take call.

Please call Renee Flis at (615) 222-2805 or send or fax resume and salary history to: Human Resources, Saint Thomas Health Services, 4220 Harding Road, Nashville, TN 37205; Fax (615) 222-6869.
